

The Content Quality Control (CQC) Specialist

Elevate the Profession + Advocate for a New Role + Create New Opportunities

Content Quality Control (CQC)

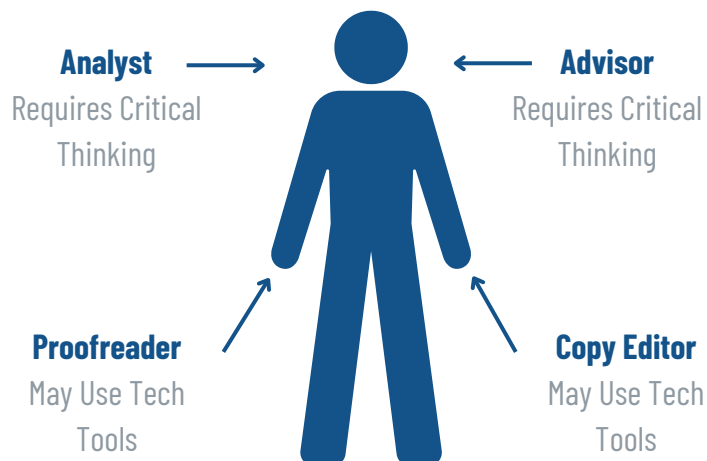

Content Quality Control (CQC) is a new approach to content editing that places a heavy emphasis on risk mitigation.

It can be used to review AI-generated content, human-generated content or a combination of both.

Find out more at www.ContentQualityControl.org.

The CQC Specialist

AI can generate inaccurate or misleading content.
A **CQC Specialist** can help reduce risk.

Reducing Risk

A **CQC Specialist** is focused on risk mitigation, not grammar perfection. This professional is a trusted business advisor who blends proofreading and editing skills with critical thinking to help further organizational objectives.
